FOREWORD

Dear Members

It is a proud and privilege moment for one to become a president of one of the prestigious business chambers in Karnataka, i.e BCIC. I am indeed appreciative and thankful to you all to have elected me to this position to lead this long-standing successful business chamber, BCIC as the President for the year 2023-24.

BCIC is known for the valued services it provides to its members by way conducting many useful seminars, webinars, workshops and arranging interactive sessions with the government bodies. All these activities happen through the 27 expert committees, which are headed by well experienced stalwarts from the respective industries.

Strength of any chamber is in its members. More the members that much useful and gainful interactions would be amongst the members. Equally beneficial to one and all. Immediate past president Dr. Ravindran, had coined a word MGM. Members Get Members. I request all the members to work on this initiative. Each one brings one new member. Karnataka, has one of the best medium and large industries, has the largest number of unicorns, largest number of startups, almost all Fortune 500 companies have an office or establishment in Bangalore. Request all the members to help the chambers grow its members strength. We should work on a 5/5 initiative. That is, Five thousand quality members in Five years. Yes, you can do it. Yes, together we can do it.

Chambers can sustain itself functioning more effectively and helping its members if we have good and large number of sponsors. We are blessed to have many such good sponsors among our members. Highly appreciate each of their valued contributions which they are providing year on year. But we need many more sponsors. It is your chamber. So, each member can help in making BCIC strong financially and building a strong chamber which will sustain for the next 25 years. Request your help in bringing in more sponsors.

Global Business Forum 2024 (GBF 2024)

Under the aegis of World Trade Centre, the Global Business Forum is being conducted in India for the first time and that too in our namma Bangalore. This is a highly acclaimed business networking forum that will be conducted between 3rd to 6th March '24. BCIC has been roped in as the knowledge partner. This gives the BCIC

Dr. S Devarajan
President - BCIC

members to actively participate in these deliberations at half the investment costs. Our own Senior Vice-President BCIC, Mr. Vineet Verma, Director Brigade Hospitality, Board Member of WTC is heading this GBF24 programme. And our own Vice-President BCIC, Mr. Prashanth Gokhale, MD, Buhler India is leading the BCIC co-ordination panel. This GBF provides an opportunity to our BCIC members to interact with some of the global industry leaders to explore the chances of technology tie-ups, product or services export, and or setting up business in their countries.

SMRJ - The Organization for Small & Medium Enterprises and Regional Innovation, Japan

On 18th October, BCIC entered a MoU with The Organization for Small & Medium Enterprises and Regional Innovation, Japan ("SMRJ") to support enterprises in India and Japan to expand their businesses globally, exchange information on trade, investment policies and provide opportunities to support SMEs and start-ups in the two countries. This is a momentous MOU. BCIC will be the nodal agency to select and shortlist Indian SMEs to tie-up with Japanese SMEs, obtain their technology, systems, and process to manufacture products for Japan, India, and the global market. BCIC members should leverage this MOU and consider expanding their business globally.

BCIC Leadership Forum

Dr. L. Ravindran, immediate past president, BCIC, is leading a new initiative of bringing together CXOs over a breakfast meeting every month. Eminent leaders in their fields of excellence are invited to address this meeting and hold gainful interactions with the attendee members. This is having a good response already. Would request more BCIC members to join this meeting and obtain the benefits.

BCIC monthly magazine

Our Publications committee chaired by Mr. Rabindra Sah, is bringing out month on month a very good inhouse magazine e-Synergy. Few BCIC members and few external authors are contributing with wonderful articles. But we require lot more articles and many more contributors to make this magazine even more successful. I request all the committee chairs to encourage their members to write interesting articles for the e-Synergy magazine and there by making it a widely read magazine not only among the BCIC members but also among other SME business owners.

FOREWORD

BCIC Awards

Over the past years BCIC started and established flagship awards under the BCIC banner. We will continue working on selecting, short-listing, and awarding the companies even this year. The respective committees are already working towards this. Notably, starting this year we would like to embark on instituting the prestigious BCIC Excellence Award to the SME organisations. Committee headed by Mr. H R Jairam is working on this. Request all the members to actively involve, promote and participate in the BCIC awards programmes.

BCIC annual events, meetings

We had in the recent past some excellent meetings conducted by our committees. Each of the event is being attended by many of our members and others invited for this. Many members have appreciated the events / meetings. We can have lot more attendance. Request our members to part-take and participate in large numbers. The committee members work hard in making the events interesting with valuable take aways for each of the events. Chamber members should make use of these events. Two hundred and more events are planned through out the year. Some are paid events while most of them are non-paid events. A number of industry visits, members place of working are also being

undertaken. There is a lot that each member can take away every year by actively participating in maximum number of events. It is your chamber after all. Leverage on this.

You can contribute

Yes, you can contribute a lot to the chamber. BCIC conducts plenty of interactions with the government officials. You have plenty of suggestions and thoughts with in you on as how to make things better. Come forward, participate, and place your thoughts to them. They will be open to your ideas. We had some notable success in the recent past when our suggestions and recommendation were adopted by the government departments. Whether it was the union finance budget or the one trillion USD GSDP plan for Karnataka or improvements to ease of doing business etc. BCIC's active participation and contributions have been acknowledged by the government officials.

Let us together walk on the journey of excellence.

Let us make the year 2023-24 a memorable one.

It will be my pleasure to work with you all. Together we can do a miracle.

Regards.

BCIC MoU Signing with SMRJ Japan

October 18, 2023

BCIC, the first industry body from India to set up an office in Tokyo, Japan is in the process of planning delegation visits to Japan for representatives from micro, small and medium enterprises in India and will host delegation visits of MSMEs from Japan to India.

These initiatives will enable India to move towards manufacturing and technology excellence. This collaboration is set to skyrocket trade volumes between India and Japan to \$41 billion by 2030. With a spotlight on SMEs and startups, this partnership promises to pave the way for both nations' technological advancements, economic exchanges, and an enriched global market presence. As BCIC establishes its footprint in Tokyo, the era of transcontinental entrepreneurial synergy has just begun.
